

Scheherazade New - Honorific ligatures

Unicode has a number of honorific ligatures. A significant number of them were added to Unicode 14.0. The below chart should aid in understanding in what context they should be used. As new characters, applications may have problems with rendering them in right-to-left text. In some cases, you can correct reading order problems by inserting a Right-to-Left mark (U+200F) after the honorific ligature.

To view the simplified alternate glyphs and for instructions in accessing the simplified alternate glyphs, see the [Features](#) document.
